PROFILE

Innovative and results-driven ICT leader with a strong background in application architecture, backend and mobile development, and AI-powered solutions. Spearheaded the development of an AI Digital Platform for Mitsubishi Bank Japan at IBM, managing agile sprints, stakeholder communications, and strategic technology decisions. Adept in multi-platform development using PHP Laravel, Kotlin, SwiftUI, and .NET technologies, with hands-on experience in Microsoft Azure services including DevOps for CI/CD, project tracking, and cloud deployment.

Skilled in designing scalable RESTful APIs, managing cloud infrastructure (AWS, IBM Cloud, Azure), and integrating enterprise-grade solutions across web and mobile platforms. Proven ability to lead cross-functional teams, define best practices, and ensure application quality, performance, and usability. Passionate about digital transformation, with a commitment to delivering impactful, secure, and user-centric ICT solutions in fast-paced environments.

WORK EXPERIENCE

IBM

JUNE 2024 - PRESENT

DOT Ready

OCT 2022 - OCT 2024

Mobile Application - Tech lead

- Developed mobile applications for DOT Tracking using Flutter technology
- Led the Flutter development team in building Android and iOS applications
- Communicated with CEO and CTO for project updates and managed the mobile team
- Spearheaded the development of innovative solutions for DOT-Ready in Cookeville, TN
- Tech Skills: Flutter, Android, Kotlin, Xcode iOS, SwiftUI, Proxyman, Confluence, Jira, Firebase · Application Development, Node.js · SwiftUI · Appstore connect · Android Development · Model-view-viewmodel (MVVM) · Kotlin · iOS Development · Google Play

Certicode

JAN 2024 - PRESENT

Founder

- As the founder of Certicode in its pre-seed stage, your main responsibility is to drive the company's early growth. This involves being very hands-on with both product development and team management.

Key Responsibilities:

- Develop the Product and Features: Directly lead the design and creation of new features. Make all key technology decisions and ensure the quality and readiness of the product for launch.
- Build and Manage the Team: Hire, train, and mentor the initial small team. Foster a culture of collaboration and rapid development.
- Define the Company Direction: Set the core strategy and vision, manage the essential business aspects of the startup, and prepare for future funding rounds.
- Establish Key Relationships: Begin building relationships with early clients and partners to gather feedback and secure initial support.

Collabera Technologies Inc.

OCT 2020 - JUNE 2023

Senior Android Developer

- Led a team in developing the uniondigital mobile app using the Flutter platform.
- Assigned as team lead, engaging in project meetings and utilizing Jira for project management.
- Collaborated with cross-functional teams to ensure successful project delivery.
- Developed and implemented innovative solutions to enhance user experience and app functionality.
- Tech Skills: Tech lead, Android, Kotlin, Jetpack, Coroutines, Retrofit, MVVM, Security Implementation, Google play and appstore deployment, Code Review.

Android Developer

- Collaborated with OMNIX DIGITAL Platform to maintain and fix bugs in Android applications
- Utilized Azure DevOps for Agile and CI/CD processes
- Presented updates to Project Managers, Directors, and VPs for the Ceb pac Mobile App
- Worked with CMS backend using Amplience
- Tech Skills: Android, Kotlin, Jetpack, Coroutines, Retrofit, MVVM

Freelance

APR 2015 - PRESENT

Full Stack Developer

- Created end-to-end mobile apps, including process flow and ERD, for startups and commercial businesses.
- Developed API services for mobile apps and web applications, negotiating services and building relationships with potential partners.
- Mentored developers, OJTs, and trainees in software development for web, mobile, Android, iOS, and Flutter.
- Testing and Deployment: Conduct thorough debugging and manual testing of applications before deploying them to app stores like Google Play.
- Research and Development: Perform research to enhance project functionalities and meet specific client requirements.
- Tech Skills: Android, Kotlin, Xcode iOS, SwiftUI, Flutter, Dart, PHP, Node.js, Laravel, React.js,

Bravissimo Resourcing, Inc.

OCT 2020 - JUNE 2023

Android Application Developer

- Outsourced company
- I'm assigned in Accenture Project.
- Led as POC Lead for Android Developer - Outsource projects at Accenture, managing resources and assessing new joiners.
- Conducted experienced management meetings to update team members on resource status and task progress.

Multisys Technologies Corporation

JAN 2020 - JUN 2020

Android Developer - Contractor

- As an Android Developer at Multisys Technologies Corporation, I maintained and added new features to projects for Smart, GoManila, GoPasig, Bayad Center, and Alleasy. Utilizing kotlin, MVVM architecture design, retrofit, lifecycle, and Dependency Injection, I ensured application performance and followed UX/UI design based on client demands.
- Conducted Research and Development tasks to enhance project functionalities.
- Utilized Jira for efficient task management as per project manager's requirements.
- Collaborated with cross-functional teams to achieve project milestones.

Dynamic Global Soft Inc.

APR 2017 - OCT 2018

Android Developer - Contractor

- Communicated with Team Leaders and senior devs to develop mobile apps for worldbex, wocee, and wosas.
- Conducted Research and development tasks to meet client requirements.
- Built, debugged, and manually tested applications before deploying them to the Google Play Store.
- Tech Skills: Android, Java, XML, PHP, MYSQL, Web Development
